Experiences

Software Engineer

Intern

Capgemini AIE - NYC March 2020 - Sept 2020

I joined the Applied Innovation Exchange (AIE), Capgemini's innovation center in New York. Defined needs and produced mock-ups of an application designed to gamify CSR actions within the group.

Developed the CSR application with accounts management, news, a ranking system and a content creation system. (PWA/React.js/Firebase)

Developed various websites (React.js).

Creation of solution mock-ups for bids in response to calls for tenders.

Defined technical architectures for the development of solutions.

Participated in brainstorming sessions on innovation as the technological specialist.

Did market studies focused on innovation.

Freelance

Various clients

Since 2020

Defined needs, designed and developed websites for various clients (charities, luxury brands...).

Front-End/Design

Intern

Trusk

July 2019 - October 2019

Created a design system according to the company's graphical identity.

Produced the company's UI Kit and integrated it (React.js, Baseweb).

Designed the B2B website (User's need definition and mockups production).

Created and integrated 3D animated videos for the different error pages (Blender, Cycles).

Motion Designer

Member

Synerg'hetic

Nov 2018 - Dec 2019

Produced motion videos for their external communication and their recruitment campaign.
